SkaFId Trailhead

Partnership Follow-Up with El Segundo Unified School District

CORRESPONDENCE

From: Charles Sims **To:** Dr. Jason Johnson **CC:** Mike Belloli ; Danielle Joseph **Subject:** Re: Follow Up — SkaFId Trailhead Implementation Plan for ESUSD

Jason,

Thank you again for the great conversation on March 9th — your enthusiasm for bringing career pathway experiences to El Segundo students was energizing, and we've been heads-down building out the specifics since then.

Attached is the **SkaFId Trailhead Implementation Plan** for our partnership with ESUSD. It outlines exactly how we see this working: what we handle on the SkaFId side (platform, curriculum, employer partnerships), what we'd need from the district (facilities, teacher mentors, student recruitment), and a month-by-month timeline so everyone knows what's coming.

A few highlights:

- **12 students** in 1 cross-grade team (9th-12th), working on real projects from local employers
- **1 dedicated teacher mentor** — we provide all training and curriculum
- **Weekly 90-minute sessions** using the SkaFId Ideation Methodology — teaching students how to *think* about problems, not just use tools
- **Employer portfolio reviews** where students get direct feedback from El Segundo companies
- **Micro-internship placements** for top performers — paid, real-world experience

We're intentionally starting small — 1 teacher, 12 students — so we can prove the model before scaling. The immediate ask is simple: we need to identify **a district point of contact, one teacher mentor**, and **a facility** for weekly sessions. Everything else, we bring to the table.

Would love to get a 30-minute call on the calendar the week of April 13th to walk through the plan together and answer any questions. Mike and Danielle are looped in and ready to coordinate logistics on our end.

Looking forward to making this happen.

Best,

Charles Sims
