Statement of Work

PROJECT TITLE

AI Studio Teams

CONTACT

Keith Coleman

ORGANIZATION

SkaFId Studio LLC

PERIOD

March 1, 2026 - February 28, 2027

AMOUNT

\$20,000

Background

AI Studio Teams is a portfolio-based career pathway program addressing the disappearance of entry-level positions. High school students build employer-validated portfolios by solving real problems for local companies using AI, developing durable metacognitive skills that transfer across any tool or domain. The program pilots in El Segundo, CA, serving 96 students across 8 teams with 12 employer partners, powered by the SkaFId Trailhead AI learning platform.

The El Segundo Unified School District Superintendent has granted full approval to implement the program and committed to providing teacher, administrative, and facility resources. The El Segundo Economic Development Committee (ESEDCC) has committed to sourcing and coordinating employer partners for the pilot.

This \$20,000 subaward will be directed primarily toward technology buildout of the SkaFId Trailhead platform. Core team leadership and district personnel contribute on a volunteer basis. The Stanford award serves as catalytic funding to validate the model and raise additional investment.

Scope of Work

Platform Development & Technology (Months 1-6):

- Complete SkaFId Trailhead platform: AI Coaching Engine (Socratic questioning for problem decomposition), Portfolio Review System (employer validation portal), Student Progression Tracking, Teacher Dashboard.
- Implement COPPA/FERPA compliance: consent management, data encryption, content moderation, enterprise SSO.

Employer Partnership Development (Months 1-6):

- Recruit and onboard 12 employer partners in El Segundo's aerospace/tech corridor (Boeing, Northrop Grumman, etc.).
- Establish Employer Council governance for portfolio standards and micro-internship design.

Pilot Implementation (Months 4-12):

- Launch El Segundo pilot: student recruitment, team formation, teacher mentor preparation.
- Deliver weekly 90-minute sessions using the SkaFId Ideation Methodology curriculum.
- Facilitate quarterly employer portfolio review panels.

Stanford Collaboration & Assessment (Months 1-12):

- Serve as liaison to Stanford Accelerator for Learning (SAL); participate in convenings and reporting.
- Track learning outcomes with disaggregated equity monitoring (50% female/male, 40% FRL, 30% first-gen).
- Develop Year 2+ sustainability model and expansion strategy.

Deliverables

Deliverable	Due
SkaFId Trailhead platform ready for pilot	Month 3
12 signed employer partner commitments	Month 3
Pilot launch: 96 students across 8 teams	Month 5
Mid-year progress report to Stanford SAL	Month 6
First employer portfolio review cycle	Month 9
24+ micro-internship placements	Month 11
Year-end report with outcomes and Year 2 plan	Month 12

Key Personnel

Name	Role	Effort
Keith Coleman	Subrecipient PI, Strategy & Partnerships	40% (in-kind)
Charles Sims	Project Director	50% (in-kind)
Mike Belloli	Technology & Operations	30% (in-kind)
Contract Engineer(s)	Platform development	~120 hrs (paid)
